# Contents

Volume 29

## Number 1

News from the BIPM 1
T. J. Quinn

Calculation of the Effective Emissivities of Specular-diffuse Cavities by the Monte Carlo Method 9
V. I. Sapritsky and A. V. Prokhorov

Bias and Optimal Linear Estimation in Comparison Calibrations 15
W. Bich

Calibration of a Digital Cross-correlator for Johnson Noise Thermometry 23
D. R. White

Direct Measurements of the Dielectric Virial Coefficients of $^4$He between 3 K and 18 K 37
M. P. White and D. Gugan

An Experimental Method for Determining the Heat Defect of Water Using Total Absorption of High-energy Electrons 59
M. Roos, B. Grosswendt and K. Hohlfeld

Equation for the Determination of the Density of Moist Air (1981/91) 67
R. S. Davis

Development of Cryogenic Sealed Cells as Temperature Standards: their Filling System and the Purification of $CO_2$ 71
J. Ancsin

## Number 2

DC and AC Techniques for Resistance and Impedance Measurements 81
F. Delahaye

The Role of the Fundamental Constants of Physics in Metrology 95
B. W. Petley

Caesium Beam Frequency Standards, Classical and Optically Pumped 113
C. Audoin

Basic RF and Microwave Measurements: A Review of Selected Programs 135
A. J. Estin, J. R. Juroshek, R. B. Marks, F. R. Clague and J. Wayde Allen

The Josephson Effect and Voltage Standards 153
R. Pöpel

The Quantum Hall Effect and Resistance Standards 175
A. Hartland

Standards for AC-DC Transfer 191
B. D. Inglis

Future Slow-atom Frequency Standards 201
K. Gibble and S. Chu

## Number 3

Non-Newtonian Gravity and New Weak Forces: an Index of Measurements and Theory 213
E. Fischbach, G. T. Gillies, D. E. Krause, J. G. Schwan and C. Talmadge

## Number 4

Emissivity X Points in Solid and Liquid Refractory Transition Metals 261
C. Ronchi, J. P. Hiernaut and G. J. Hyland

Report on the 1990 International Comparison of 1 Ω and 10 kΩ Resistance Standards at the BIPM 273
F. Delahaye, D. Bournaud and T. J. Witt

Analysis of Controlled Clearance Seals 285
A. H. McIlraith and M. P. Fitzgerald

BIPM Neutron-Dosimetry Intercomparison 295
V. D. Huynh

Iodine-stabilized He-Ne Lasers at $\lambda = 633$ nm of a Compact Construction 301
F. Petrů, B. Popela and Z. Veselá

Comparison of VNIIOFI and CSIRO Photometric and Radiometric Quantities 309
J. L. Gardner, R. Stoliarevskaya, W. J. Brown and M. N. Pavlovich

*Short Communication*

Measuring Procedure to Realize the Ampere by the Superconducting Mass Levitation Method 313
Yu. V. Tarbeyev and E. T. Frantsuz

*Short Communication*

Verification of Revised Water Vapour Correction to the Index of Refraction of Air 315
J. Beers and T. Doiron

## Number 5

Radiometric Measurements and Correlation-induced Spectral Changes 319
K. A. Nugent and J. L. Gardner

Estimation of Uncertainties Caused by Elastic Deformations in a Superconducting Levitation System 325
Yu. V. Tarbeyev and E. T. Frantsuz

Intercomparison of Northern European $^{127}I_2$-Stabilized He-Ne Lasers at $\lambda = 633$ nm 331
J.-M. Chartier, H. Darnedde, M. Frennberg, J. Henningsen, U. Kärn, L. Pendrill, Jianpei Hu, J. C. Petersen, O. Poulsen, P. S. Ramanujam, F. Riehle, L. Robertsson, B. Ståhlberg and H. Wahlgren

An Experimental Method for Measuring the Heat Defect of Water Using Total Absorption of Soft X-Rays 341
H.-J. Selbach, K. Hohlfeld and H. M. Kramer

High-precision Calibration of Long Gauge Blocks Using the Vacuum Wavelength Comparator 349
H. Darnedde

International Comparison of Iodine Cells 361
J.-M. Chartier, S. Picard-Fredin and A. Chartier

*Short Communication*

EUROMET Intercomparison of Half-inch Microphone Pressure Calibration 369
E. Siegfried

## Number 6

Decade Designs for Weighings of Non-uniform Variance 373
E. C. Morris

Propagation of Variance in Dew Point and Psychrometer Humidity Gauges 379
G. D. Chapman

Comparison of Josephson Voltage Standards of the Electrotechnical Laboratory and the Bureau International des Poids et Mesures 389
D. Reymann, A. Iwasa, H. Yoshida, T. Endo and T. J. Witt

Real-time Restitution of GPS Time Through a Kalman Estimation 397
Claudine Thomas

Thermodynamic Inconsistency of the ITS-90 Below 1,5 K 415
B. Fellmuth and G. Schuster

Elastic Distortions in Piston-Cylinder Units at Pressures up to 0,5 GPa 425
G. F. Molinar, R. Maghenzani, P. C. Cresto and L. Bianchi

Obituary: Leslie E. Howlett 441
H. Preston-Thomas
